

## *Ernest L. Dickens, Jr.*

**E**rnest L. (Ernie) Dickens, Jr., is Vice President and General Manager of the Integral Systems Service Solutions (IS3) business unit of Integral Systems, Inc., providing global managed network services for satellite and terrestrial communications markets. IS3 specializes in Quality of Service link monitoring, remote infrastructure management, and interference detection and geolocation subscription services. Before assuming his current role, Mr.

Dickens served the Company as Vice President of Strategic Business Development from 2002 to 2008.

Mr. Dickens has more than 30 years defense industry experience, having held executive management positions with Stanford Telecom and ITT prior to joining Integral Systems. Before joining Stanford Telecom in 1981, Mr Dickens served eleven years in the US Army where he was assigned to The Defense Communications Agency (now DISA) supporting various MILSATCOM projects. In addition to extensive US military technical training, Mr. Dickens holds a BS degree in Business from Hawaii Pacific University.
